

J.W. Carrigan LLC

Electric & Communications

Laurence N. Lynch, Vice President of Operations

With over 25 years of electrical contracting experience, Mr. Lynch's entry into the electrical industry began in the IBEW's Apprentice Training Program. Upon completion of his apprenticeship, he worked in the field and has served JW Carrigan as a foreman, then as a field specialist, and eventually as a project manager. Larry's experience is invaluable and he continues to consult on design-build aspects of electrical and voice/data projects. He now serves as Vice President of Operations, supervising all project managers and estimators. Mr. Lynch also serves as a member of the JW Carrigan Safety Committee.
